

ABOUT KATHRYN'S WINES

Kathryn's Wines is a wine shop that focuses on curating natural, organic and biodynamic wines.

We opened in Jacksonville in September of 2020 with 3 goals:

1. **Changing the way people think about wine agriculture:** Through telling the stories and selling the wines of winemakers throughout the world who are bucking social and farming norms and growing fruit in a way that positively stewards natural resources and the environment
2. **Creating an inclusive space to learn about wine:** Through classes and tasting opportunities we enable our patrons to explore their palates - while teaching the language and tasting skills to build the confidence to comfortably talk about wine. All in an approachable environment.
3. **Investing in our local community:** Through partnerships and financial support of organizations committed to agricultural and social projects that align with our values of accessibility and sustainability.
